QUESTION ED4:

Pennsylvania's education funding has increased significantly over the past decade. The state now provides around \$22,000 per student annually- one of the highest rates nationally. And school districts have amassed \$5.9 billion in reserve funds. However, there are proposals to further increase state spending on public education by \$6 billion. For a family of four, this proposed \$6 billion increase would result in roughly \$2,000 more paid in taxes each year.

Would you support paying an additional \$2,000 in annual taxes to provide this \$6 billion funding boost for public schools in Pennsylvania?

QUESTION ED4:

Pennsylvania's education funding has increased significantly over the past decade. The state now provides around \$22,000 per student annually- one of the highest rates nationally. And school districts have amassed \$5.9 billion in reserve funds. However, there are proposals to further increase state spending on public education by \$6 billion. For a family of four, this proposed \$6 billion increase would result in roughly \$2,000 more paid in taxes each year.

Would you support paying an additional \$2,000 in annual taxes to provide this \$6 billion funding boost for public schools in Pennsylvania?

QUESTION SB1:

Pennsylvania Gov. Josh Shapiro has proposed a \$48.3 billion 2024-25 General Fund budget, a \$3 billion or 7.1 percent spending increase compared to last year's ongoing general fund spending. This budget proposes another \$4.5 billion in new spending initiatives and would increase the structural deficit to more than \$6 billion. The proposed new spending would deplete the Rainy Day Fund, necessitating a tax hike of more than \$2,000 per family of four.

Knowing this do you support or oppose Gov. Shapiro's budget proposal?
