QUESTION 29:
Thinking more about energy issues in Pennsylvania, below is a series of different ideas and proposals people are talking about in Pennsylvania. After you read each one, please indicate if you support or oppose that proposal.

We should reject government programs and taxpayer funded subsidies for politically favored energy industries that drive up costs and make electricity distribution more unreliable. Doing so will address rising energy prices and growing blackout risks in Pennsylvania, ensuring affordable and reliable power for residents.

QUESTION 52:
Changing topics and thinking about some federal policy proposals, below is a series of different ideas and proposals people are talking about nationally. After you read each one, please indicate if you support or oppose that proposal.

Support regulatory relief by requiring a vote by the U.S. Congress for any new federal administrative regulation with an annual economic impact of \$100 million or more, and reforming federal permitting policies to improve efficiency.
